Our History

Sin Hup Hin Tyre Retreading

Established in 1973, we have become a major player in the supply and fitting of tyres over the span of 5 decades. In the last 15 years, we diversified into a wide range of engineering supplies and services primarily to the construction, commercial, industrial, transportation and agricultural sectors. We specialise in the heavy vehicle segment that includes trucks and trailers, tractors and industrial equipment.

This is exemplary in our heavy footprint of highly mechanised oil palm plantations such as Sime Darby Plantations Sdn Bhd and KLK Plantations Bhd. We are also an official solid tyre supplier and service provider for UMW Industries Sdn Bhd. Additionally, we expanded into the mechanical and electrical engineering segment, and today, we supply parts, equipment and engineering services to palm oil mills, factories, workshops and GLCs.
